Wisconsin	1,242,558	1,291,001	3.9%

*These states also reported revisions to FY08 data.

Note. These revisions are listed here because of the great interest in shifting fiscal support for higher education during the current recession. Please note that this does not represent a final accounting of the revisions that have been made to FY09 appropriations. Further revisions may be reported by these and other states in the upcoming survey for FY2010. In addition, the revisions noted here may not in all cases reflect fiscal rescissions. Some may reflect the usual shifts over time as states balance their budgets.
